Supporting Operation Uplift

Cancer Support Organization for the Olympic Peninsula

Operation Uplift is a non-profit cancer support group which was founded in Port Angeles Washington in 1983. Although we started as a breast cancer support group, we now provide support for survivors of all types of cancer. Operation Uplift is governed by a board of directors who are all volunteers. 100% of all money raised for Operation Uplift is used to support the community.

All money received is used to support Cancer Victims and Survivors in Clallam County, Washington.
